## **Patient Safety Tool: Medication History/Discharge Order/Patient Instructions Form**

From Kearney County Health Services

By Rob Kurtz | July 18, 2011

Kearney County Health Services, based in Minden, Neb., provided a medication history/discharge order/patient instructions form for use in a medication reconciliation toolkit developed by the Critical Access Hospital Network and available on the website of the Nebraska Hospital Association.

The two-page form addresses several critical components of a safe patient discharge, including medications to continue at home, new medications, restrictions on activities, restrictions on diet and guidelines for wound/incision care.

Down the discharge form (doc) for adaptation and use in your facility.
