Patient Safety Tool: Transitions of Care Checklist

By Rob Kurtz | August 29, 2011

The National Transitions of Care Coalition (<http://www.ntocc.org/>) Advisory Task Force has published a free, downloadable transitions of care checklist.

This checklist provides a detailed description of effective patient transfer between practice settings. This process can help to ensure that patients and their critical medical information are transferred in a safe, timely and efficient manner.

Download the NTOCC's transitions of care checklist (http://www.ntocc.org/Portals/0/TOC_Checklist.pdf) for adaptation and use in your facility.
